PROFESSIONAL EXPERIENCE

SGTM – Storekeeper

Safi | 10/2025 – Present

- Managed stock receipts and issues using SAP.
- Prepared and tracked material and supply issue slips.
- Retrieved and reviewed purchase orders in SAP.
- Received goods and checked delivery notes (BL), quantities and conformity.
- Prepared and monitored transfers between construction sites.
- Tracked stock movements and updated records in SAP and Excel.
- Monitored material consumption by site supervisors.
- Prepared monthly supporting documents for supplier verification and approval.
- Prepared and monitored monthly supplier statements.
- Coordinated deliveries and material usage with suppliers and site managers.
- Organized and assigned tasks to the stock team.
- Supervised receiving, storage, picking and material dispatch.
- Filed purchase orders, delivery notes, issue slips, transfer slips and records.
- Developed an Excel-based issue-slip system automating creation, saving, printing and movement history.

Freelance – WordPress Developer

01/2025 – 08/2025

- Set up secure hosting environments (SSL, redirects, DNS) and reliable update workflows.
- Developed custom hooks and filters for content types, metadata and editorial automation.
- Designed a modular plugin with reusable fields and shortcodes, focused on performance and maintainability.

TWINS – Web Developer

Fez | 10/2020 – 10/2024

- Developed and integrated WordPress and Drupal websites.
- Customized themes and modules.
- Managed MySQL databases.
- Improved SEO and website performance.
- Worked with Agile practices (Git, Jira).
